PLEASE READ CAREFULLY BEFORE ORDERING

GUARANTEE

We exercise the greatest care to have first-class bulbs true to name and will replace free any stock proving otherwise. Please notify us at once if shipment should not arrive in a satisfactory condition.

ORDER EARLY

Many varieties are sold out early. Order promptly to avoid disappointments. But late orders will receive careful attention. Open all packages upon arrival. Keep in a cool, dry place.

TERMS

Our terms are Net Cash before shipment unless arranged otherwise. 25% will hold winter orders until March first. Orders not fully paid for will be sent C. O. D. for the balance at time of shipment to you.

GRATIS

All orders are filled with a liberal overcount. Gratis of varieties other than ordered are included in each customer's package. We strive to keep our prices as low as other reliable growers, and will gladly include overcount to cover any reasonable reduction after list is issued.

POSTAGE

All orders amounting to \$1.00 or over will be sent prepaid to any point in United States, if taken from our **Prepaid List**. On orders of less than \$1 add 15 cents postage.

PRICES

Prices listed herein cancel all previous quotations. All stock offered and orders accepted subject to prior sale. We will gladly meet any other grower's prices where possible.

WHOLESALE PER THOUSAND

If you will send us your list of wanted varieties, stating quantity and size of each, we will be very glad to quote you **SPECIAL REDUCED PRICES** on gladiolus bulbs **PER THOUSAND**, either Prepaid or f. o. b. Seabrook, N. H., as you prefer.

**PLEASE MAKE MONEY ORDERS PAYABLE AT THE EXETER,
NEW HAMPSHIRE, POST OFFICE**

Please Select Second Choice, if Possible

A Message of Thanks

WE'RE NEVER TOO BUSY TO SAY "THANK YOU" to our patrons nor are we ever too busy to give complete and careful attention to everyone who comes to our gardens or orders by mail. But at the year-end the members of SEABROOK NURSERIES feel urged to express a very special "THANK YOU" to cover the whole year and to go to all the friends whose patronage and good will have meant so much to our success.

The picture on this catalogue cover will give all our many friends and patrons both far and near a glimpse of our large gladiolus field, and store house. It is the best advertisement we know of.

There probably won't be much pleasure driving or vacations this year, but please do call and see the field in bloom when this way.

Remember a VICTORY garden will help out a lot this year, so plan to have a good one. A border of "GLADS" around it will give you a great deal of pleasure.

So we are sending you this sincere message of appreciation to let you know what is in our hearts. We invite you to visit our 20 acres of gladiolus, in bloom from July 15th until frost, located on U. S. Route 1, main highway to Portsmouth, N. H., six miles from Newburyport, Mass.

Yours for Victory,

SEABROOK NURSERIES,

Seabrook, N. H.

Mabel M. Rowe, Prop.

GLAD-I-O'-LUS:-

Please pronounce this wonderful flower right. The accent on the O'.

GLAD-I-O'-LUS and use the same form for both singular and plural. It hurts to hear one say GLADIOLA or GLADIOLIS!

DO GLADS CHANGE COLOR?

GLADIOLUS do NOT Change Color.

We have been asked this question hundreds of times. So many varieties divide or split. Suppose you plant twelve mixed bulbs, when you dig them you find you have about thirty bulbs. That is the reason you have more of one color than others. Many varieties do not divide, so you dig only one new bulb on the one you planted. And some not quite so strong just die out in the ground.

Of course glads grow older each year, you dig a new bulb but not a young one. So it is best to keep adding more bulbs to your collection each year.

PLANTING TIME

Our planting time here is around APRIL to JUNE, so when ordering your bulbs to be sent to you at planting time, please state when planting time is in your locality. It will help us a lot.

WHEN YOU CHANGE YOUR ADDRESS

Please notify us so we can change our files. Also please give your old address at the same time. This will save us many catalogues and you will receive yours.
THANK YOU.

CARE AND CULTURE OF GLADIOLUS

Select a sunny location away from the roots of trees and shrubs. Plant about six inches deep, having bulbs five inches apart.

Place bulbs in a well worked trench in staggered or zigzag row— . . . and cover at first with about two inches of loam; when shoots begin to appear, work balance of loam into the trench. At all times keep the soil loose. As an aid to producing larger blooms work in fertilizer around the plants when about a foot or more in height. At the time flower spikes appear, abundant watering is very beneficial.

Bulbs should be dug before leaves turn brown. Cut stock close to the bulb, spread them out to dry for two or three days in a sunny location and then place in an open shed or room for two weeks or more before storing them away in a cool dry place. Keep them spread out and not over three inches deep, give bulbs an occasional airing during the winter.

When cutting flowers, leave at least four leaves remaining on the plant. Positive injury to the blooming qualities of the bulbs for the following year will occur if this precaution is not heeded.

For cut flowers, cut the spike when first bud fully opens. The remaining buds will open nicely and give a longer period of bloom and greater enjoyment.

Remove wilted blossoms, change water and cut off small portion of the stems each day.

CONTROL OF THRIPI

This insect can be carried on clothing, from one field to another by birds, high winds or in bouquets. Many bulbs are perfectly clean when planted, yet contract Thrip before season is over.

Thrip are black and cream, 1-16 inch long and live in the folding gladiolus leaves. Sometimes they can be detected by the silvery sheen on leaves although many times discovery is too late and the buds do not open as the insect has extracted all juice from them previously.

When plants are about three inches tall and thrip is found, it is best to use a solution of the following as a **weekly spray**.

Use 1 pound Tartar Emetic, 4 pounds brown sugar to 25 gallons water for weekly spray. Tartar Emetic is a deadly poison to human beings. Tartar Emetic spray will not burn the foliage. Or use 3 gallons water, tbsp. of Tartar Emetic and 1-3 cup sugar for smaller amounts.

If discovery is made too late, it is best to cut tops off, about six inches from ground and burn them, allow bulbs to stay in ground until digging time. The above spray can be used on remaining stalk to kill anything which might be left.

Dig, clean and dry bulbs in usual manner. Place thoroughly dry bulbs in boxes. Sprinkle Napthalene Flakes over bulbs at the rate of 1 pound to 2000 bulbs or 1 ounce to 100 corms. Immediately cover receptacles with paper to confine fumes. Keep bulbs at temperature of about 60 degrees for three weeks. Store in dry place, uncovered, at 40-50 degrees for winter.

Warning—Treat stock in Fall, before roots swell or form at base. Napthalene adhering to bulbs may burn rootlets where they appear. Bulbs must be thoroughly dry before treating with Napthalene.

Bichloride of Mercury can be used to disinfect in proportion of 1 ounce to 8 gallons of water, or 10-15 grain tablets to gallon water, or if only a small amount of bulbs use 1-5 grain tablet to 1 pint water, soaking bulbs in solution for 3 hours. If many varieties to soak at the same time, place them in sugar, salt or net bags, labelling each variety, using little wood labels. A waterproof pencil can be used on the labels for marking. Do not use metal containers.

NAPTHALENE FLAKES, 2 POUND PACKAGE, 50c WITH BULB ORDERS

LYSOL DISINFECTANT.—As a dip for gladiolus bulbs, it has proven very satisfactory, 4 teaspoonfuls of Lysol mixed in 1 gallon of water, soaking the bulbs for 6 hours eliminates thrip and stimulates root growth.

Although this method has not been tried by us, we have known of others who have had success with Lysol. It may prove more satisfactory than the Mercury method.

SEABROOK NURSERIES GLADIOLUS

GIFT COLLECTIONS

Plan on presenting Gladiolus bulbs on Special Occasions, Birthday, Valentine, Easter, Mother's Day, Father's Day, or just any day before planting time so your relatives or friends may enjoy these lovely blooms this Summer, in their gardens.

These Selections are made up of large sized bulbs correctly labeled. Total value of any single collection is over \$2.00.

ANY ONE COLLECTION FOR \$2.00—ANY THREE FOR \$5.75

If you do not wish to send Collections, order bulbs of your own choice from the Prepaid Listings, and Page 9.

Open all Packages upon arrival and keep in a cool dry place, about 40 degrees is best.

ROCKWELL'S BOOK ON GLADIOLUS

Gladiolus, by F. F. Rockwell. Recommended as "the best brief guide on gladiolus growing." It tells how to plant, fertilize, and cultivate; how to grow from seed or bulblets; how to harvest and cure; how to handle for cut flowers and every other detail needed for success with this popular flower, 45 illustrations, 78 pages. Prepaid \$1.35.

SIZE IN BULBS

In Retail list, the large bulbs that we offer are $1\frac{1}{4}$ inches and over in diameter; medium size are $\frac{3}{4}$ inch up, and small bulbs $\frac{1}{2}$ inch up. For Wholesale sizes see list.

Beside the originator's name we have listed the approximate flowering season of each variety as follows:

E—Early, under 70 days from planting.

EM—Early Midseason, 70-80 days from planting.

M—Midseason, from 80-90 days from planting.

LM—Late Midseason, over 90 days from planting.

L—Large M—Medium S—Small Blts. Bulblets.

For large quantities see Wholesale List.

3-4 or 6 may be purchased at the 12 rate.

No single item accepted for less than 10 cents.

TRY OUR VICTORY SPECIAL. See Page 21

SEABROOK NURSERIES GLADIOLUS

UNLABELED COLLECTIONS AT PREPAID PRICES

We have long been noted for the excellence of our mixtures, stating with reasonable assurance, that there are but few growers able to offer as varied and choice assortments such as we assemble. The bulbs are all 1½ inches and over, and not the medium bulbs 1 inch or smaller, such as many offer at even greater prices. If you want medium bulbs, pay only what you should.

GARDEN MIXTURE

Composing many fine varieties, all colors. Splendid for a gorgeous garden display or flowers for cutting. \$2.00 per hundred, fifty for \$1.00 or 25c a dozen. Medium bulbs \$1.25 per hundred, fifty for 75c.

PRIMULINUS MIXTURE

For daintiness and quality, there is nothing that can equal our Primulinus Hybrids. For table or interior decorating, they are unsurpassed. \$3.00 per hundred, fifty for \$1.50 or 50c doz. Medium bulbs \$1.50 per hundred, 50 for 75c.

SEABROOK MIXTURE

Exhibition Types

Made up of a large number of very choice varieties of superior merit. If bought under name the bulbs would cost many times the price asked. \$4.00 per hundred, \$2.00 for fifty, 60c doz. Medium bulbs \$2.50 per hundred, \$1.25 for 50.

DELUXE COLLECTION

To satisfy the demand for a mixture containing the choicest varieties that it would be possible to buy for a reasonable price, we offer this collection with the assurance given that you will be agreeably surprised at the wonderful value. Every bulb that is put into this collection is from a variety of the finest exhibition type and collection well balanced as to colors. \$6.00 per hundred, \$3.00 for fifty, \$1.50 for twenty-five. Medium bulbs, \$4.00 per hundred. \$2.00 for 50.

COLOR COLLECTION

Ten large bulbs, each COLOR labeled, 100 bulbs in all, Yellow, Red, Pink, Cream, Salmon, Lavender, White, Purple, Orange and Old Rose. These are put up in three grades, \$2.00, \$4.00, and \$6.00. We can assemble these also in packages of 5 each at half price.

IRIS

We have numerous varieties not labeled that can only be sold in mixtures. All good sorts in varied collection, \$1.00 dozen. Also lots of single Colors for \$1. dozen. Buy a Yellow, White, Orchid or Mahogany collection.
